Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 2, 3, 5, 6 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear to Examiner as to what Applicant is referring to when with the following limitations; regarding claims 2, 3; 5, 6; 8 recites the limitation "stored in **act (b) (ii)**, stored in **act (c) (2)**, stored in **act (b) (ii)** " respectively in lines 18; in line 5; in line 18 respectively as well.

Claims 2, 3; 5, 6; 8 recites the limitation "stored in **act (b) (ii)**, stored in **act (c) (2)**, stored in **act (b) (ii)** " respectively in lines 18; in line 5; in line 18 respectively as well. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

3. Claims 1, 4, 7, 9-22 are allowed over prior art.
4. The following is a statement of reasons for the indication of allowable subject matter:
Although the cited art discloses a group of nodes in communication system that includes peer-peer communication, wherein the communication is associated with virtual connection and determining zones with the network, they fail to teach/suggest a node used to determine a current partial topological state of a network that includes routing data based on an intra-zone routing table/inter-zone routing table, and providing location request with zone identifier/node identifier.
